This will guide you on how to view the Discharge Medication Reconciliation, and how to print the Discharge Instructions, which contains the discharge med list.

First, after you search for your patient, be sure you choose the correct visit by clicking the ‘Visit’ tab, the clicking the correct visit on the left:

To view discharge med rec, click on the ‘Orders’ tab, then click ‘Discharge Reconciliation’:

You will then be able to view the discharge med list.
To print the Discharge Instructions (which contains the discharge med list), click on the ‘Patient Record’ tab, then click ‘Print’:

Then choose the appropriate Discharge Instructions, then click ‘Preview’:
You can then click on the printer icon at the top, which will allow you to choose your local printer, and print:
